# How To Draw Mystical Mushrooms

Grab a piece of paper, and select 2 colour pencils: 1 light colour and 1 darker colour for the outline.

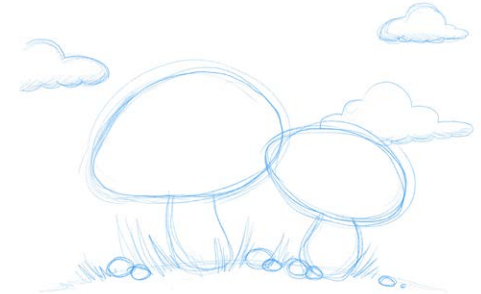

**Step 1.**  
Sketch out 2 squishy ovals for your mushroom caps.

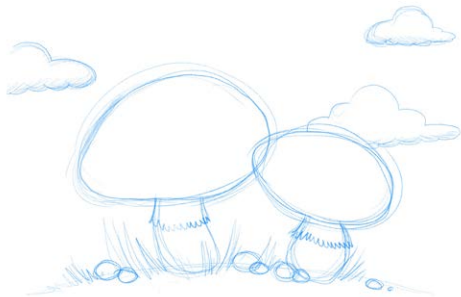

**Step 2.**  
From the bottom of these caps, sketch out 2 squishy rectangles for the stalks.

**Step 3.**  
Sketch out the ground. Make upward strokes for grass, and add some round pebbles

**Step 4.**  
Add some clouds. Make larger round strokes at the top of the cloud, and much smaller ones at the base.

**Step 5.**  
Add a ring/skirt to your mushroom. Make a squiggly line near the top of your stalks. Join the squiggly line up to the base of the cap.

**Step 6.**  
Add spot details to your caps. You can add whatever shapes you like.

**Step 7.**  
With a darker pencil, outline the main lines of your artwork, and add more details and shading if you wish.
